

Inland Northwest Woodturners

The Inland Northwest Woodturners serves Eastern Washington and North Idaho. We are devoted to the education of aspiring woodturners.

We meet at 6:30p.m. on the first Thursday of each month at Woodcraft, located at 212 N. Sullivan Rd.

While helping each other learn more about this fascinating hobby is our goal, we also feel that the club provides an outstanding opportunity to develop life-long friendships with people who share your interest in turning wood. We have among our membership turners who are known worldwide as well as beginners.

We try to provide a meaningful experience for everyone.

Please see the website or Carl for the current rate.

Special Demonstrators – About twice a year we host a world-class woodturner for day-long demonstrations. They also hold one to three-day classes for a small group. Members are given first chance to attend these demonstrations and classes at reduced cost.

Stuart Batty

Doing Good – The Inland Northwest Woodturners actively support local organizations that support those that need help, such as the American Childhood Cancer Organization of the Inland Northwest (ACCOIN) with Hero Bead Boxes and donations for their annual auction and the Vets Garage. We received a 2017 EOG Grant from AAW for upgrading the Vets Garage woodturning shop and provide instructors and mentors on a weekly basis.

In addition, the Inland Northwest Woodturners is a 501c3 organization.

Benefits of Membership

Camaraderie! – Woodturners are the friendliest of people. We are always helping each other with woodturning problems, wood cutting parties, bulk purchases of supplies and just having fun working and learning together!

Our Website – www.inwoodturners.org is an award-winning website. We won the AAW 2017 Best Website for “*The Inland Northwest Woodturners’ site is rich with both public and member content that contributes to advancing the art and craft of woodturning. The site contains a multitude of downloadable resources and links, as well as a specific section dedicated to safety.*”

Member Resources – On the website there are many resources for woodturners including:

- How-to articles by club members,
- A directory of local and national suppliers,
- A members-only directory of members with the option to post pictures of your work, and
- A page on woodturning safety.

Monthly Meetings – We have a critique table where members show off their latest creations; general announcements of woodturning interest, demonstrations and open turning; a raffle table of wood and gift certificates! There’s always coffee available, too.

Club Purchases – The club occasionally makes a bulk purchase of supplies that woodturners find useful and necessary for their turnings. Past bulk purchases have included Anchoseal and CA glue. Purchases are based on need and participation. There generally are significant cost savings for members.

Newsletter – Our monthly newsletter is hosted on our award-winning website (www.inwoodturners.org) and contains a message from our president, club and AAW activities calendar, a Project of the Month, a review of objects shown at the previous club meeting and a For Sale page.
