February 2009 Meeting

February meeting was a big hit. The Turn and Learn drew participation from members new and old. (Or should that be novice and experienced?) Ed Krumpe said he counted 62 in attendance. Here, Charlie Benson gives tips on sharpening and Russ Fairfield pushes the gouge smoothly from rim to center.

Dan Chadwick looks over Richard Penzinski's bowl, Doug Schroeder works a bowl gouge and Jason Evans trims up the bottom of his piece.

Next meeting, topping the agenda will be a demonstration of inlay techniques. **Everett Best** will share his experience and give tips using brass, stone and other materials to fill natural voids and carved detail. Also, check out www.stephenhatcher.com for a look at the work of a top turning artist featuring decorative inlays.

Pictures for the website, several members brought work for the photo booth. We'll do it again in April. If you have your own digital images, send them by email to bob@air-pipe.com.
