

## INLAND NORTHWEST WOODTURNERS NEWSLETTER

Next Meeting is Thursday  
February 3, 2011, 7 PM at the  
WoodCraft Store classroom,  
N.E. corner of Sprague and  
Sullivan (north side of the Fred  
Meyer parking lot.

### January Meeting 2011

Thanks to Harlan Fatzinger for his demonstration using the lathe to make columns. He explained that his use of a router rather than a gouge is because "...a gouge doesn't have a cord."

### February Meeting:

February is open turning. There will be a sharpening station with tips on preparing your tools as well as a chance to try a couple different grinding machines. Bring your gouges and chisels. Sabrina will have a station demonstrating micro-spindle techniques, be ready to try it. We will also have a photo tent set up to take pictures of your work for our website and for your own use. It's likely that someone got "volunteered" to take another station, come to the meeting and see. It might be you.

## Turning 25-A Celebration

The AAW has given each chapter the opportunity to be a part of the annual exhibition in at the annual symposium June. This is a chance to share with others the fine work from the Northwest. All members, regardless of experience, are invited and encouraged to participate. The work need not be large, unusual or elaborate, it must however, be the best we can do (no sanding marks, torn grain, etc.) Deadline for submission of work is at the February meeting. You may read about this event on the AAW website, [www.woodturner.org](http://www.woodturner.org). The following are rules for submission of work:

One entry per chapter
