Next Meeting is Thursday,
June 5, 2008 at WoodCraft Store
classroom, N.E. corner of
Sprague and Sullivan (N. side of
the Fred Meyer parking lot)
7:00 PM

May Meeting 2008

Thanks to Everett Best for his demonstration and comments on carving. We got a chance to see how you can enhance, decorate or create a whole new direction on a turned piece of wood. Also, practical advice on tool use and choices, if you use it most often maybe it's not just your favorite, it might be the best.

Turn a bowl with three tools:

Don't miss the June meeting, our demonstrator will be Russ Fairfield. Russ is a master turner and when you listen to conversations among members you're likely to hear "...if I could just turn it as thin as Russ does...", "...I used the Fairfield finish on that one..." or "...how did he do that?"

The Sharing Table:

Bill Eller's birch heart was the result of a "mid course design correction". It started as a bowl but the wood just wouldn't cooperate. Jim Christiansen's carved lid was originally on another vessel and Dan holds a dainty ambrosia maple bowl made by Norm MacPhee.

This great looking segmented box is from the shop of Roy Behm.

Upcoming events:

Bruce Campbell will be our demonstrator at the **September 4th** meeting. The next day, Bruce will teach an all day seminar including instruction on turning on sharpening. Only 8 spots will be available (\$75 each), see a club officer to sign up.

.....

Learning Resources:

The club owns a number of books, articles and videos (DVD & VHS) on the subjects of turning techniques and design. Sabrina Murphy has provided an updated inventory, see her at the meeting to check out items of interest. Good stuff!
